For more information call **201-807-5825** or visit us at www.bcuu.org

SAVE MONEY ON YOUR WATER BILL.

Rain barrels collect water from your roof to water your lawn, garden or indoor plants, wash your car or pet, and more.

KEEP SEWAGE OUT OF YOUR BASEMENT.

Rain barrels reduce storm water inflow into your sanitary sewer system and keep wastewater out of your homes.

SAVE TAXES & KEEP UTILITY FEES LOW.

Reduce stress on public wastewater collection and treatment systems, eliminating the need to expand existing infrastructure.

CREATE A HEALTHY ENVIRONMENT.

Rain barrels are the first step to healthy streams, lakes & rivers. Rainwater is better for your plants because it lacks chlorine and fluoride.
